Hazardous according to criteria of Australian Safety and Compensation Council.

1 Identification

- **Product identifier**
  - **Trade name:** Alginoplast
  - **Relevant identified uses of the substance or mixture and uses advised against**
    - No further relevant information available.
  - **Application of the substance / the mixture** Dental impression material

- **Details of the supplier of the safety data sheet**
  - **Manufacturer/Supplier:** Heraeus Kulzer Australia Pty Ltd
  - Unit 32
  - 11 – 21 Underwood Rd
  - HOMEBUSHER NSW 2140
  - Australia
  - **Emergency telephone number:** Emergency contact number: 13 11 26 (24 hours)

2 Hazard(s) Identification

- **Classification of the substance or mixture**
  - Eye Irrit. 2A  H319 Causes serious eye irritation.
  - Skin Sens. 1  H317 May cause an allergic skin reaction.
  - STOT RE 2  H373 May cause damage to organs through prolonged or repeated exposure.

- **Label elements**
  - **GHS label elements**
    - The product is classified and labelled according to the Globally Harmonised System (GHS).
  - **Hazard pictograms**
    - GHS07  GHS08

- **Signal word** Warning

- **Hazard-determining components of labelling:**
  - Kieselguhr, soda ash flux-calcined dipotassium hexafluorotitanate

- **Hazard statements**
  - Causes serious eye irritation.
  - May cause an allergic skin reaction.
  - May cause damage to organs through prolonged or repeated exposure.

- **Precautionary statements**
  - Do not breathe dust/fume/gas/mist/vapours/spray.
  - Wear protective gloves/protective clothing/eye protection/face protection.
  - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  - Specific treatment (see on this label).
  - If skin irritation or rash occurs: Get medical advice/attention.
  - Wash contaminated clothing before reuse.

- **Other hazards**
  - **Results of PBT and vPvB assessment**
    - **PBT:** Not applicable.
3 Composition and Information on Ingredients

- **Chemical characterisation:** Mixtures
- **Description:**

<table>

- **Dangerous components:**

- **Additional information**
  The hazards in Chapters 3 do not relate to the product itself, but to the ingredients of the product.
  For more details see chapter 11.
  For the wording of the listed hazard phrases refer to section 16.

4 First Aid Measures

- **Description of first aid measures**
  - **After inhalation** Supply fresh air; consult doctor in case of symptoms.
  - **After skin contact**
    Instantly wash with water and soap and rinse thoroughly.
    If skin irritation continues, consult a doctor.
  - **After eye contact**
    Rinse opened eye for several minutes under running water. Then consult doctor.
  - **After swallowing**
    Rinse out mouth and then drink plenty of water.
    In case of persistent symptoms consult doctor.
  - **Information for doctor**
    - Most important symptoms and effects, both acute and delayed
      No further relevant information available.
    - Indication of any immediate medical attention and special treatment needed
      No further relevant information available.

5 Fire Fighting Measures

- **Extinguishing media**
  - Suitable extinguishing agents
    CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam.
  - Special hazards arising from the substance or mixture
    No further relevant information available.
  - Advice for firefighters
    - Protective equipment: No special measures required.
6 Accidental Release Measures

- Personal precautions, protective equipment and emergency procedures
  Wear protective equipment. Keep unprotected persons away.
- Environmental precautions: Do not allow to enter drainage system, surface or ground water.
- Methods and material for containment and cleaning up:
  Send for recovery or disposal in suitable containers.
- Reference to other sections
  See Section 7 for information on safe handling
  See Section 13 for information on disposal.
  See Section 8 for information on personal protection equipment.

7 Handling and Storage

- Handling
  - Precautions for safe handling Wear protective equipment. Keep unprotected persons away.
  - Information about protection against explosions and fires: No special measures required.
- Conditions for safe storage, including any incompatibilities
  - Storage
    - Requirements to be met by storerooms and containers: No special requirements.
    - Information about storage in one common storage facility: Not required.
- Specific end use(s) No further relevant information available.

8 Exposure controls and personal protection

- Additional information about design of technical systems: No further data; see item 7.
- Control parameters

- Additional information: The lists that were valid during the compilation were used as basis.

- Exposure controls
  - Personal protective equipment
    - General protective and hygienic measures
      Keep away from foodstuffs, beverages and food.
      Instantly remove any soiled and impregnated garments.
      Wash hands during breaks and at the end of the work.
    - Breathing equipment: Use breathing protection against the effects of fumes/dust/aerosol.
    - Protection of hands:
      The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
      If skin contact cannot be avoided, protective gloves are recommended to avoid possible sensitization.
      Check protective gloves prior to each use for their proper condition.
  - Material of gloves
    The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
  - Penetration time of glove material
    The exact breakthrough time has to be found out by the manufacturer of the protective gloves and has to be observed.
  - For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:
    Butyl rubber, BR
    Nitrile rubber, NBR
  - Eye protection: Tightly sealed safety glasses.
  - Body protection: Light weight protective clothing

9 Physical and Chemical Properties

- Information on basic physical and chemical properties
  - General Information
    - Form: Solid.
    - Colour: According to product specification
    - Odour threshold: Aromatic
    - Odour threshold: Not determined.
  - pH-value: Not applicable.

- Change in condition
  - Melting point/freezing point: Not determined
  - Initial boiling point and boiling range: Not determined
  - Flash point: Not applicable

- Inflammability (solid, gaseous) Not determined.
### 45.3 Ignition temperature:
- Not determined.

### 45.4 Decomposition temperature:
- Not determined.

### 45.5 Self-inflammability:
- Product is not selfigniting.

### 45.6 Explosive properties:
- Product is not explosive.

### 45.7 Critical values for explosion:
- Lower: Not determined.
- Upper: Not determined.

### 45.8 Steam pressure:
- Not applicable.

### 45.9 Density
- Not determined.
- Settled apparent density: 250-500 kg/m³
- Relative density: Not determined.
- Vapour density: Not applicable.
- Evaporation rate: Not applicable.

### 45.10 Solubility in / Miscibility with
- Water: Insoluble

### 45.11 Partition coefficient: n-octanol/water: Not determined.

### 45.12 Viscosity:
- Dynamic: Not applicable.
- Kinematic: Not applicable.

### Other information
- No further relevant information available.

### 10 Stability and Reactivity
- Reactivity: No further relevant information available.
- Chemical stability:
  - Conditions to be avoided: No decomposition if used and stored according to specifications.
- Possibility of hazardous reactions: No dangerous reactions known.
- Conditions to avoid: No further relevant information available.
- Incompatible materials: No further relevant information available.
- Hazardous decomposition products: None

### 11 Toxicological Information
- Information on toxicological effects
  - Acute toxicity
    - LD/LC50 values that are relevant for classification:
      - 16919-27-0 dipotassium hexafluorotitanate
        - Oral LD50: 324 mg/kg (rat)
    - Primary irritant effect:
      - Skin corrosion/irritation: No irritant effect.
      - Serious eye damage/irritation: No irritant effect.
    - Respiratory or skin sensitisation
      - No sensitizing effect known.
      - Guinea-Pig Maximisation Test (OECD 406): negative

(Contd. on page 6)
### Trade name: Alginoplast

(Contd. of page 5)

- **Additional toxicological information:**
  The product contains no relevant dust particles (particle size > 100 micrometer) because the surface of the kieselguhr is coated with paraffin wax.

### 12 Ecological Information

- **Toxicity**
  - Aquatic toxicity: No further relevant information available.
- **Persistence and degradability** No further relevant information available.
- **Behaviour in environmental systems:**
  - Bioaccumulative potential: No further relevant information available.
  - Mobility in soil: No further relevant information available.
- **Results of PBT and vPvB assessment**
  - PBT: Not applicable.
  - vPvB: Not applicable.
- **Other adverse effects:** No further relevant information available.

### 13 Disposal considerations

- **Waste treatment methods**
  - **Recommendation**
    Small quantities can be polymerized with the matching system component(s) and the cured solid material can be disposed of with the regular garbage.
    Disposal must be made according to official regulations.

- **Uncleaned packagings:**
  - **Recommendation:** Disposal must be made according to official regulations.

### 15 Regulatory information

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

- **GHS label elements**
  - The product is classified and labelled according to the Globally Harmonised System (GHS).
  - **Hazard pictograms**
    - ![GHS07](image1)
    - ![GHS08](image2)
  - **Signal word** Warning
  - **Hazard-determining components of labelling:**
    - Kieselguhr, soda ash flux-calcined
    - dipotassium hexafluorotitanate
  - **Hazard statements**
    - Causes serious eye irritation.
    - May cause an allergic skin reaction.
    - May cause damage to organs through prolonged or repeated exposure.
  - **Precautionary statements**
    - Do not breathe dust/fume/gas/mist/vapours/spray.
    - Wear protective gloves/protective clothing/eye protection/face protection.
    - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
    - Specific treatment (see on this label).
    - If skin irritation or rash occurs: Get medical advice/attention.
    - Wash contaminated clothing before reuse.
  - **Directive 2012/18/EU**
  - **Named dangerous substances - ANNEX I** None of the ingredients is listed.
  - **Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

### 16 Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- **Relevant phrases**
  - H302 Harmful if swallowed.
  - H317 May cause an allergic skin reaction.
  - H318 Causes serious eye damage.
  - H335 May cause respiratory irritation.
  - H373 May cause damage to organs through prolonged or repeated exposure.

- **Abbreviations and acronyms:**
  - ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  - IMDG: International Maritime Code for Dangerous Goods
  - IATA: International Air Transport Association
  - GHS: Globally Harmonised System of Classification and Labelling of Chemicals
  - EINECS: European Inventory of Existing Commercial Chemical Substances
  - ELINCS: European List of Notified Chemical Substances
  - CAS: Chemical Abstracts Service (division of the American Chemical Society)
Trade name: Alginoplast

LC50: Lethal concentration, 50 percent
LD50: Lethal dose, 50 percent
PBT: Persistent, Bioaccumulative and Toxic
vPvB: very Persistent and very Bioaccumulative
Acute Tox. 4: Acute toxicity – Category 4
Eye Dam. 1: Serious eye damage/eye irritation – Category 1
Eye Irrit. 2A: Serious eye damage/eye irritation – Category 2A
Skin Sens. 1: Skin sensitisation – Category 1
STOT SE 3: Specific target organ toxicity (single exposure) – Category 3
STOT RE 2: Specific target organ toxicity (repeated exposure) – Category 2

* Data compared to the previous version altered.
