Hazardous according to criteria of Australian Safety and Compensation Council

1 Identification of the substance/mixture and of the company/undertaking

- **Product identifier**
  - **Trade name:** Xantopren function hardener 1
  - **Relevant identified uses of the substance or mixture and uses advised against**
    No further relevant information available.
  - **Application of the substance / the mixture** Activator for dental impression material

- **Details of the supplier of the safety data sheet**
  - **Manufacturer/Supplier:** Heraeus Kulzer Australia Pty Ltd
    Unit 32
    11 – 21 Underwood Rd
    HOMEBUSH NSW 2140
    Australia
    Tel: +61 (0) 2 9764 5222
  - **Informing department:** see above
  - **Emergency telephone number:** Emergency contact number: 13 11 26 (24 hours)

2 Hazards identification

- **Classification of the substance or mixture**
  - Flam. Liq. 3 H226 Flammable liquid and vapour.
  - Skin Irrit. 2 H315 Causes skin irritation.
  - Eye Irrit. 2 H319 Causes serious eye irritation.
  - STOT SE 3 H335 May cause respiratory irritation.
  - STOT RE 2 H373 May cause damage to organs through prolonged or repeated exposure.

- **Label elements**
  - **GHS label elements**
    The product is classified and labelled according to the Globally Harmonised System (GHS).
  - **Hazard pictograms**
    - GHS02
    - GHS07
    - GHS08

- **Signal word** Warning

- **Hazard-determining components of labelling:**
  - tetraethyl orthosilicate
  - dibutyltin dilaurate

- **Hazard statements**
  - Flammable liquid and vapour.
  - Causes skin irritation.
  - Causes serious eye irritation.
  - May cause respiratory irritation.
  - May cause damage to organs through prolonged or repeated exposure.

- **Precautionary statements**
  - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
Trade name: **Xantopren function hardener 1**

Use explosion-proof electrical/ventilating/lighting/equipment. Do not breathe dust/fume/gas/mist/vapours/spray. 
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. 
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. 
Store locked up.

**Other hazards**

**Results of PBT and vPvB assessment**

- **PBT:** Not applicable. 
- **vPvB:** Not applicable.

**3 Composition/information on ingredients**

- **Chemical characterisation:** Mixtures
- **Description:** Activator for use with condensation curing silicone-based impression materials

| CAS: 78-10-4 | tetraethyl orthosilicate | 25-50% |
| EINECS: 201-083-8 | | Flam. Liq. 3, H226; Acute Tox. 4, H332; Eye Irrit. 2, H319; STOT SE 3, H335 |

| CAS: 77-58-7 | dibutyltin dilaurate | 25-50% |
| EINECS: 201-039-8 | | STOT RE 2, H373; Skin Irrit. 2, H315; Eye Irrit. 2, H319 |

**Additional information** For the wording of the listed hazard phrases refer to section 16.

**4 First aid measures**

- **Description of first aid measures**
  - **General information**
    Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.
  - **After inhalation** Supply fresh air; consult doctor in case of symptoms.
  - **After skin contact** If skin irritation continues, consult a doctor.
  - **After eye contact** Rinse opened eye for several minutes under running water. If symptoms persist, consult doctor.
  - **After swallowing** Rinse out mouth and then drink plenty of water. Instantly call for doctor.

In case of persistent symptoms consult doctor.

**Information for doctor**

- **Most important symptoms and effects, both acute and delayed**
  No further relevant information available.

- **Indication of any immediate medical attention and special treatment needed**
  No further relevant information available.
5 Firefighting measures

- **Extinguishing media**
  - Suitable extinguishing agents: CO₂, sand, extinguishing powder. Do not use water.
  - For safety reasons unsuitable extinguishing agents
    - Water.
      - Water with a full water jet.
  - Special hazards arising from the substance or mixture
    - Can form explosive gas-air mixtures.
    - Formation of toxic gases is possible during heating or in case of fire.
- **Advice for firefighters**
  - Protective equipment: Put on breathing apparatus.
- **Additional information**

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
  - Wear protective equipment. Keep unprotected persons away.
- **Environmental precautions**:
  - Do not allow to enter drainage system, surface or ground water.
  - Do not allow to enter the ground/soil.
- **Methods and material for containment and cleaning up**
  - Absorb with liquid-binding material (diatomite, universal binders, for small amounts tissues).
  - Dispose of contaminated material as waste according to item 13.
  - Do not flush with water or aqueous cleansing agents
- **Reference to other sections**
  - See Section 8 for information on personal protection equipment.

7 Handling and storage

- **Handling**
  - Precautions for safe handling
    - Keep containers tightly sealed.
    - Ensure good ventilation/exhaustion at the workplace.
  - Information about protection against explosions and fires:
    - Keep ignition sources away - Do not smoke.
    - Protect against electrostatic charges.
- **Conditions for safe storage, including any incompatibilities**
  - Storage
    - Requirements to be met by storerooms and containers: No special requirements.
    - Information about storage in one common storage facility: Not required.
    - Further information about storage conditions: None.
- **Specific end use(s)**
  - No further relevant information available.
8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.

- Control parameters

- Components with critical values that require monitoring at the workplace:

- Additional information: The lists that were valid during the compilation were used as basis.

- Exposure controls

- Personal protective equipment

- General protective and hygienic measures
  - Keep away from foodstuffs, beverages and food.
  - Instantly remove any soiled and impregnated garments.
  - Wash hands during breaks and at the end of the work.
  - Avoid contact with the eyes and skin.

- Breathing equipment: Not required.

- Protection of hands:
  - The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
  - Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
  - Solvent resistant gloves
  - Check protective gloves prior to each use for their proper condition.

(Contd. on page 5)
Material of gloves
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material
The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:
- Butyl rubber, BR
- Nitrile rubber, NBR

Eye protection: Safety glasses

Body protection: Light weight protective clothing

### 9 Physical and chemical properties

- **Information on basic physical and chemical properties**
  - **General Information**
    - **Appearance:**
      - Form: Fluid
      - Colour: Light red
    - Smell: Aromatic
    - Odour threshold: Not determined.
  - **pH-value:** Not determined.
  - **Change in condition**
    - Melting point/Melting range: Not determined
    - Boiling point/Boiling range: 170 °C
  - **Flash point:** 36 °C
  - **Inflammability (solid, gaseous)** Not applicable.
  - **Ignition temperature:** 265 °C
  - **Decomposition temperature:** Not determined.
  - **Self-inflammability:** Product is not selfigniting.
  - **Danger of explosion:** Product is not explosive. However, formation of explosive air/vapour mixtures is possible.
  - **Critical values for explosion:**
    - Lower: Not determined.
    - Upper: Not determined.
  - **Steam pressure at 20 °C:** 10 hPa
  - **Density at 20 °C**
    - Relative density: Not determined.
    - Vapour density: Not determined.
### 10 Stability and reactivity

12 Ecological information

- Toxicity
  - Aquatic toxicity:
    78-10-4 tetraethyl orthosilicate
    EC50/48h >844 mg/l (daphnia)

- Persistence and degradability
  - No further relevant information available.

- Behaviour in environmental systems:
  - Bioaccumulative potential
    - No further relevant information available.
  - Mobility in soil
    - No further relevant information available.

- Additional ecological information:
  - General notes:
    - Do not allow product to reach ground water, water bodies or sewage system.
    - Danger to drinking water if even small quantities leak into soil.

- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.

- Other adverse effects
  - No further relevant information available.

13 Disposal considerations

- Waste treatment methods
  - Recommendation
    - Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- Uncleaned packagings:
  - Recommendation: Disposal must be made according to official regulations.

14 Transport information

- UN-Number
  - ADG, IMDG, IATA
    - UN1993

- UN proper shipping name
  - ADG
    - 1993 FLAMMABLE LIQUID, N.O.S., special provision
      640E (TETRAETHYL SILICATE, dibutyltin dilaurate)
  - IMDG
    - FLAMMABLE LIQUID, N.O.S. (TETRAETHYL SILICATE, dibutyltin dilaurate), MARINE POLLUTANT
  - IATA
    - FLAMMABLE LIQUID, N.O.S. (TETRAETHYL SILICATE, dibutyltin dilaurate)
Trade name: Xantopren function hardener 1

- **Transport hazard class(es)**
  - ADG
    - Class: 3 (F1) Flammable liquids.
    - Label: 3
  - IMDG
    - Class: 3 Flammable liquids.
    - Label: 3
  - IATA
    - Class: 3 Flammable liquids.
    - Label: 3
  - Packing group
    - ADG, IMDG, IATA
    - Label: III
  - Environmental hazards:
    - Marine pollutant: Yes
      - Symbol (fish and tree)
  - Special precautions for user
    - Kemler Number: 30
  - Transport in bulk according to Annex II of Marpol and the IBC Code
    - Not applicable.
  - Transport/Additional information:
    - ADG
      - Limited quantities (LQ): 5L
      - Transport category: 3
      - Tunnel restriction code: D/E
  - **UN "Model Regulation":**
    - UN1993, FLAMMABLE LIQUID, N.O.S., special provision 640E (TETRAETHYL SILICATE, dibutyltin dilaurate), 3, III

(Contd. of page 7)
15 Regulatory information

- Safety, health and environmental regulations/legislation specific for the substance or mixture
  - GHS label elements
    The product is classified and labelled according to the Globally Harmonised System (GHS).
    - Hazard pictograms
      - GHS02
      - GHS07
      - GHS08
  - Signal word Warning
  - Hazard-determining components of labelling:
    - tetraethyl orthosilicate
    - dibutyltin dilaurate
  - Hazard statements
    - Flammable liquid and vapour.
    - Causes skin irritation.
    - Causes serious eye irritation.
    - May cause respiratory irritation.
    - May cause damage to organs through prolonged or repeated exposure.
  - Precautionary statements
    - Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
    - Use explosion-proof electrical/ventilating/lighting/equipment.
    - Do not breathe dust/fume/gas/mist/vapours/spray.
    - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
    - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
    - Store locked up.
  - Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- Relevant phrases
  - H226 Flammable liquid and vapour.
  - H315 Causes skin irritation.
  - H319 Causes serious eye irritation.
  - H332 Harmful if inhaled.
  - H335 May cause respiratory irritation.
  - H373 May cause damage to organs through prolonged or repeated exposure.

- Abbreviations and acronyms:
  - ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
  - IMDG: International Maritime Code for Dangerous Goods
  - IATA: International Air Transport Association
  - EINECS: European Inventory of Existing Commercial Chemical Substances
**Trade name:** Xantopren function hardener 1

- ELINCS: European List of Notified Chemical Substances
- CAS: Chemical Abstracts Service (division of the American Chemical Society)
- DNEL: Derived No-Effect Level (REACH)
- PNEC: Predicted No-Effect Concentration (REACH)
- LC50: Lethal concentration, 50 percent
- LD50: Lethal dose, 50 percent
- PBT: Persistent, Bioaccumulative and Toxic
- vPvB: very Persistent and very Bioaccumulative
- Flam. Liq. 3: Flammable liquids – Category 3
- Acute Tox. 4: Acute toxicity – Category 4
- Skin Irrit. 2: Skin corrosion/irritation – Category 2
- Eye Irrit. 2: Serious eye damage/eye irritation – Category 2
- STOT SE 3: Specific target organ toxicity (single exposure) – Category 3
- STOT RE 2: Specific target organ toxicity (repeated exposure) – Category 2

* Data compared to the previous version altered.
